GRAND SANITIZER

Waterless Hand Sanitizer

Product Description

Grand Sanitizer is an alcohol rub, also known as an alcohol gel, hand sanitizer or healthcare personnel hand wash is used by people as a supplement or alternative to hand washing with soap and water. The active ingredient in alcohol rubs may be isopropanol, ethanol, or (in Europe) propanol. A variety of preparations are available, including gels, foam and liquid solutions. Hand sanitizers containing alcohol are more effective germ killers than soaps or antimicrobial soaps and alcohol rubs do not dry out hands as much as soaps.

Areas of Use

Grand Sanitizer is highly suited for all general and commercial applications such as homes, offices, cinemas, shopping centers, light industries and other public areas.

Properties

- ✓ Dipolyethelyn - Glycol Ether 2% CAS NO:26027-38-3
- ✓ Carboxyrinyl - 0-3% CAS NO: 903-1-14
- ✓ Dinature Alcohol - More Than 60% CAS NO: Nil
- ✓ H2O – As Base

Specifications

Colour / Odour	:	Transparent Clear Gel
Odour	:	Slight Drakka Fresh
SG	:	1.000 +/- 0.005
Solubility	:	Complete
Boiling Point	:	~ 100 Celsius
Percentage Volaties	:	Minimum 75%
Evaporation Rate (As H2O)	:	Faster
Flash Point	:	NDA
% Total Solid	:	8.0 – 9.0
